Theme for this month

Plants: We spoke about the different parts of the plant. In the first week children sowed black gram in a cup as an individual project and sowed moong in a transparent tray as a group project and saw different stages of plant growth. In the second week, the children brought fruits to eat every day and at the end of the week they made fruit salad and fruit mask. In the third week, we made vegetable book marks, made vegetable prints and at the end of the week, we had sprouting delight. In the fourth week we spoke about junk food and healthy food, made a cut out of a tooth and pasted a picture of healthy food on the white part and junk food on the yellow part of the tooth. We also had a puppet show with the story line of fruits and vegetables.

Rhymes for the month

The farmer sows the seed.....

Fruit salad yummy, yummy.....

We are pumpkins big and round.....

Everybody likes fruits and vegetables.....

Celebrations

Independence Day: Kindergarten children made tri-colour pom-poms and some of our children performed yoga.

ONAM

Children brought different kinds of flowers to make Rangoli with flowers in their class & spoke about why & how Onam is celebrated. Everyone enjoyed eating banana chips.
